|------------|---|
| WA-245-A-1 | PERSPECTIVE WITH LEAN-TO, LOOKING NORTHWEST.<br>The lean-to on the west façade was removed after it collapsed in severe weather in the late 1990s. The access drive leads to South Fort Casey Road.   |
| WA-245-A-2 | INTERIOR VIEW OF HAY STORAGE, LOOKING NORTH.<br>The barn is constructed of hand-hewn, 10" square post and beams with mortise and tenon, pegged joints. The photograph also shows the hayfork and track, double doors on the north façade, and window opening. |
| WA-245-A-3 | NORTHWEST CORNER WITH POST AND BEAM CONSTRUCTION. The photograph also shows the battens that were added on the interior of the west bay, and the openings for rafters from the west lean-to.  |
| WA-245-A-4 | LEAN-TO INTERIOR, LOOKING EAST. Image shows: ladder attached to south façade, gate separating hay storage from animal pens, and east wall construction.   |
